

(Continued from Third page.)

to shoulder the firm step of a conqueror, the banker, planter, merchant, mechanic, laborer, and even to the poorest and humblest of patriotic citizens, to strain every nerve in the human body with grit, pluck and courage for the cause, for if you don't succeed, try and try again, as

Little drops of water,
Little grains of sand,
Make the mighty ocean,
And the pleasant land.

The time is not far distant that the Stars and Stripes of the home, the brave and the free will ascend to the zenith of its pinnacle on Hawaiian territory, unfurling to the breeze in these beautiful and tropical isles, which are the emeralds of the Pacific; from the snowy and iced crests of Mauna Kea, fifteen thousand feet above the level of the sea, its summits piercing into space, you look down, but a century ago, the barrier between civilization on the one side and almost unbroken barbarism on the other, the beautiful plains of Waimea, rich and luxuriant in foliage, with thousands of times as much of cattle grazing from sunrise till sunset. Sugar plantations and minor industry in operation with millions and millions of capital invested and planted there. An island of herself rich in resources and wealth, and in whose glory she proudly shares. Thence westward poured the tide of American civilization, pride and progress. From the rugged and towering cliffs of Haleakala you gaze upon Spreckelsville, of miles and miles of sugar cane, once a barren plain, but by the ingenuity of man, propelled by capital and labor, it is converted into resources of wealth. Thence onward to the last, the garden island, which is the most beautiful of the group in verdure and green, a vigorous and prosperous island, during the few years just passed equal, if not superior, to that of any other in proportion. Furthermore, with thirty millions and over of American capital invested, to be at the mercy of a despotic monarchy, are we for a moment to think that the Democratic administration will restore the old regime, which is contrary to the principles and laws of the United States, when she has done no wrong, or even lifted a finger. Thousands and thousands of lives perished at the great rebellion, and blood flowed like water, in obtaining from under the heels of injustice and tyranny and Great Britain for "Liberty, Freedom and Equality."

We hold forth our hands to the American people whose forefathers reared the magnificent structure of a free republic, that laid its foundation broad and deep in the elemental principles of right. Its materials were all guarded from the mountain of truth; and as it rose majestically before an astonished world it rejected the hearts and hopes of mankind. Tyrants only cursed the workmen and their workmanship. Its architecture was new. It had no pattern in Grecian and Roman history. It seemed a paragon let down from Heaven to inspire the hopes of men, and to demonstrate God's favor to the people of the new world. The builders recognized the rights of human nature as universal. Liberty, the great first right of man, they claimed for all men, and claimed it from God himself. Upon this foundation they erected the temple, and dedicated it "Liberty, Equality and Justice," as the avenue of hope, the Utopia of the nations.

GEORGE MARKHAM,
(Keoki Makamau),
Kalih, June 14, 1893, H. I.
AN AMERICAN MINISTER.

The disposition manifested in certain quarters to discredit our Minister to Hawaii on the ground that he has been a loyal American, extremely useful to his country, efficient in the promotion of its interests and successful in defending it against the intrigues and conspiracies of those who seek to overthrow American influence in Hawaii, furnishes disagreeable evidence of the fact that there is room in this country for the development of patriotism. The relation of Hawaii to the United States may not inaptly be compared with the relation of Egypt to England. All, certainly, that can be claimed to justify the British occupation of Egypt, enforces our duty to annex Hawaii. The difference in the two conditions is simply this—that the people and rulers of Egypt are opposed to England's domination, and that France and Turkey claim to have rights in Egypt comparable with England's, while Hawaii, by the admission of all nations is peculiarly within the sphere of American influence, and the people resident there who have tangible interests in the Islands are sincerely and ardently desirous of its incorporation into the Union. The acts of British agents in Egypt—acts remarkable for their audacity and their disregard of the susceptibilities of the Egyptian natives and of other foreigners than Englishmen—are hailed by both parties and by the public press of England without exception as wise, patriotic and deserving of applause and reward. It does not appear that Minister Stevens has done anything in Hawaii except upon the request of the acknowledged Government of the Islands and in accordance with the desires of the Hawaiian people. He has simply acted the part of a prudent American Minister, regardless of his responsibilities and resolute in the performance of his duty, but the fact that he has interpreted his duty to be the advancement of his country's influence is seized upon by a certain section of the Democratic party, apparently with the sympathy of President Cleveland, as a ground for abusing him. It appears to be the reason of the Government's action in dispatching a special Commissioner to Hawaii, with "paramount authority in all matters affecting the relations" of that country and ours.

In this aspect of Mr. Cleveland's policy it is offensive to all intelligent and patriotic Americans. They are a

They Have Come!

Those Razor Strops you have been waiting for several weeks, are here. They are so good that it has been said of them, that if you lay your razor, and one of these strops down together on your washstand, the razor will keep a fine edge; still, we recommend following the directions printed on each strop.

Anti-Rattlers.—We have a new kind which you can put on to the shafts of your buggy, without breaking four fingers and a thumb. They prevent two things—rattling and swearing.

Boardman's Pat. Wrench.—4 sizes, just the kind of combination wrench to have about the house.

Try the new **Keystone Egg Beater**, if you want a beater that will do quick, clean work.

Hose,—1/2-in. to 2-in., 3 and 4-ply plain or wired, just received; cheap and good quality; also carbolized. We have a large stock of "Hubbards," "Pioneer," and cheaper brands of **White Leads and Zinc**. Also, Oil, Turpentine, and all painters' supplies, and you will do well to see our Stock and get our Prices before you paint your house.

American Flags,—6 to 18 feet long, came by the last steamer to us. They are a fine lot, sewed bunting.

Fire Arms and Ammunition.—A new lot of Sporting and Target Rifles, Colt's new Navy, Smith and Wesson, and cheaper Revolvers, came last week and can now be seen. We carry the most complete assortment of Cartridges in town, from 22 to 50 cal., and always have plenty of them.

Leather.—We have received within the past sixty days, by steamer and sail, 66 Rolls of Leather, containing 9088 lbs., and 5347 ft.; also, 3 bales containing 142 doz. sheep skins, so it looks as if we meant to keep our Stock of Leather up, although by getting it in large lots, we are able to keep the prices down.

Salt.—We are headquarters for **Hawaiian Salt**, as we make it. That the quality is good, and Price Low, is easily shown by the large quantity we sell every week.

Blight Compound.—Five gallons will make 65 gallons of wash. You spray your Lime and Orange Trees with this wash, and the Blight will do the rest, die and drop off the trees. We have the compound at our store, or can give you an order on the Gov't. Nursery for it, but don't forget to bring a 5-gallon can to put it in. We sell spraying outfits.
